Skills

- ❖ Java, HTML, CSS, JavaScript, and jQuery
- ❖ Object-oriented programming, Unit Testing, Dependency Injection, NetBeans IDE, MySQL, Spring MVC, Spring JDBC and SQL Query Writing
- ❖ Agile Methodology, Atlassian Tools, Apache and tomcat.

Experience

MAY 2016 - PRESENT

The Software Guild: Akron, OH- *Software Apprentice*

- ❖ Java Language Fundamentals – variable declaration, looping constructs, conditional statements, class modeling, exception handling, unit testing, and n-tier application structure.
- ❖ Web Development Fundamentals – Spring MVC, HTML, CSS, JavaScript, and jQuery.
- ❖ Database Fundamentals – MySQL, SQL Query Writing, Table Creation, Spring JDBC, and Hibernate.
- ❖ Project Management Fundamentals – wire-framing, user stories, work estimation, and iterative development.
- ❖ Over 750 hours of coding experience.

Projects

- ❖ **Cellular Automation** - Built a 2 dimensional cellular automation JavaScript application. Supports pre-made rules, user defined rules, and drawing/deleting cells, cells colored by age, and randomly generated starting points.
- ❖ **Flooring Calculator** - Created a Java console application to add/edit/delete order information for a hypothetical flooring company. orders calculated price and taxed based on an external list of states and tax information, and saved all order information into an external list.
- ❖ **Project site** - Used Spring MVC to connect several Java web apps, such as: a unit converter, a tip calculator, an interest calculator, and a factorization calculator. Web pages also had dynamic content written in Javascript.

Employment

JUN 2015 - APL 2016

Walmart: Brownsburg, IN- *Stocker*
